1st Prize Science Exhibition
Winner Badminton Championship
2nd Prize University-level Quiz
2nd Prize Technical Quiz
3rd Prize DTSE 2018
4 Star HackerRank

Hobbies

Movies & Web Series, Music
Quizzing, Pro Wrestling (WWE)
Chess, Badminton, Cricket

Experience

JULY 2021 **Lets Grow More Summer of Code** **Project Admin & Mentor**
• As a project admin, maintained my 4 projects 'Apna theatre', 'Apni dukaan', 'Voters registration portal', and 'Income tax calculator' at an open-source event LGM-SoC'21.
• Lead 300+ newbies into the world of open source and helped them in getting acquainted with GitHub and open source.
Leadership, Mentorship, Project Management, Teaching, Git, GitHub

JUNE 2021 **Internship Studio** **Machine Learning Intern**
• Created ML regression models to predict YouTube ad-view count based on other YouTube metrics.
• Used multiple python libraries to clean, visualize, and normalize data set and learned a great deal about machine learning.
Jupyter Notebook, Google Colab, Python, Numpy, Pandas, Sklearn, Matplotlib

MAR 2021 **Cross Winter of Code** **Mentee**
• Contributed to a few amazing open source projects. I was among the top 30 contributors. Learned a lot about open source, Git and GitHub.
• Fixed bugs from existing websites and implemented enhancements that significantly improved web functionality.
Open Source, Git, GitHub, Web Development, Teamwork

MAR 2021 **The Sparks Foundation** **Android App Development Intern**
• Built a demo of bank payments android app which allows users to manage their account details and make payments.
• Grasped essential skills for app development also got an opportunity to learn from my fellow interns and evaluate their projects.
App Development, Android Studio, Java, Front-end designing

DEC 2020 **Suven Consultants & Technology** **Frontend Developer Intern**
• Successfully created 4 websites over the entire internship duration of 1 month and gained excellent web development skills.
• Used Html, CSS, JS, and Bootstrap to make websites interactive and responsive.
HTML, CSS, JavaScript, Bootstrap, Front-end-web development, VS code

Projects

JUL 2021 **Voters Registration Portal** **Project Link**
• An online application form of the National Voters Service Portal.
• Available in multiple languages including email authentication for login, audio captcha verification, and many other splendid features.

JUN 2021 **Apna Theatre** **Project Link**
• A movie streaming website that allows users to watch multiple movies and TV shows of different genres.
• The website has a plethora of features like login, user authentication, movie search using API call, etc.

JUN 2021 **YouTube Ad-view Prediction** **Project Link**
• The objective was to train various regression models and chose the best one to predict the YouTube ad-view count based on other YouTube metrics.

FEB 2021 **Bank's Payment Android App** **Project Link**
• A demo of a bank's payment service application that allows users to make payments and manage accounts. Built using Android Studio and Java.

OCT 2020 **Income Tax Calculator** **Project Link**
• A GUI application built using tkinter python that calculates the liable tax of a salaried Indian citizen.
• Calculates old and new tax also suggests a better tax scheme. Send results via email and generates PDF.
